

KS2 - Rainforest Primates

Session Overview

In this session, pupils will uncover the secret world of the rainforest and learn all about the amazing primates who inhabit them. This talk will take children from the Amazon Basin, across the world to South East Asia, meeting capuchins, marmosets, gibbons, macaques and orang-utans along the way. Children will discover how primates are adapted to suit life in the rainforest, what daily life entails and what is threatening to destroy the rainforests once and for all.
