

Post-Visit Activities

LEVEL ONE:

- **MONKEY WORLD - APE RESCUE CENTRE**

See how many words to do with plants and animals you can make out of the letters above. Here are some to start you off: tree, lemur, donkey, arm.

- Using the information that was gathered during the visit to Monkey World, the children should prepare a presentation on their computer or on paper on a specific primate species. It should contain sections that describe its country of origin, main food, maximum size etc.
- Design an educational poster or advertisement for Monkey World.
